Re. Lake Charles Regional Airport Site
CSRS Job No. 214135

Dear Mr. Fontenot:

According to the FEMA Digital Flood Insurance Rate Map (FIRM) panel no. 22019C0490Fof Calcasieu, Louisiana, effective February 18, 2011, the Lake Charles Regional Airport Site property is located in Flood Zone "X". In addition, according to the FEMA Effective FIRM map provided on the LSU AgCenter website (<http://maps.lsuagcenter.com>), the site is located in Flood Zone "X". The LiDAR contours downloaded from LSU's ATLAS site indicate that the site ranges in elevation from 9 feet to 15 feet, however, the mean elevation of the developable property on the site is at elevation 12 feet.

No further action is needed to meet floodplain construction standards.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Sincerely,

CSRS, Inc.

Taylor M. Gravois, PE, PLS
