MR. RANDY DENMON
DENMON ENGINEERING COMPANY Inc.
PO BOX 8460 MONROE, LA 71211

Mr. Randy Denmon,

As per your inquiry on provisioning of fiber based facilities to the site noted as the Franklin Farms Mega site located east of Rayville Louisiana north of the intersection of US Hwy 80 and LA Hwy 183. AT&T can provide fiber SONET services OCx and Giga-bit Ethernet services to the location requested as per our tariff's filed with the State of Louisiana within 90-180 days of a firm order. Typically the type of transmission transport is dictated by the type of service required. Cost associated with fiber placements on public right of ways within reason are generally absorbed and extraordinary lengths on private properties will have to be negotiated. If you have any questions or concerns please feel free to get in touch with me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Larry Bratton".

Larry Bratton
