RE: Site Review for Benoit LA-26 Site, Jefferson Davis Parish, Louisiana

Dear Mr. Stelly:

We have completed the desktop site review for the Benoit site, referenced above. The State Historic Preservation Officer's database map does not show any previous archaeological surveys in the site's direct Area of Potential Effects (APE), nor are there recorded archaeological sites.

This determination does not include any need for a standing structure survey, inside or outside the project area, as may be later requested by the Division of Historic Preservation, nor any archaeological evaluation that may be later recommended by the Division of Archaeology.

Sincerely,

Malcolm K. Shuman, Ph.D., R.P.A.
