Re. Calhoun Technology Park – North Site Railroad Letter
CSRS Job No. 216269

Dear Ms. Pierre:

A Kansas City Southern Railway operated line exists along the southern boundary of the Calhoun Technology Park – North Site in Ouachita Parish, Louisiana. A representative with Kansas City Southern Railway stated that railway access for the site may not be possible due to design requirements and necessary at grade crossing along US Highway 80. Because of these issues it is likely that rail access is not feasible for the Calhoun Technology Park – North Site.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Sincerely,

CSRS, Inc.

Taylor M. Gravois, PE, PLS
