Re. Calhoun Technology Park - North Site Natural Gas Distribution Service Line
CSRS Job No. 216269

Dear Ms. Pierre:

According to local utility officials, the Calhoun Technology Park -North Site located in Ouachita Parish, Louisiana has access to a 4" natural gas distribution on site operated by Regency. This line however does not have the capacity to service industrial development. A 6" natural gas transmission lines owned by Gulf South Pipeline Company exist on site and may be available for natural gas access.

In order to provide a natural gas supply, the site would require the construction of a tapping station to tie in to one of the Gulf South Pipeline Company, Inc transmission gas lines. The construction cost of a proposed natural gas tapping station and is \$480,000. This cost can vary due to site pad location, crossing of any wetlands or roadways and line depths. Permission would have to be granted from Gulf South Pipeline Company, Inc to tie in to their transmission line.

Please note this estimate does not include engineering, required rights of way, environmental impacts, or operation and maintenance costs. This cost estimate was prepared with the best information available at the time of certification. The actual costs can vary based on the availability of material, site conditions and labor availability. This plan can be executed within a reasonable timetable of 180 days or less based on preliminary engineering judgment.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Sincerely,

CSRS, Inc.

Taylor M. Gravois, PE, PLS

Calhoun North Site
Natural Gas Cost Estimate
Job No. 216269

Rough Order of Magnitude Cost Estimate					
Item No.	Description	Unit	Est. Quantity	Unit Price	Extension
1	High Pressure Tap and Metering Station	Each	1	\$ 400,000.00	\$ 400,000.00
Subtotal:					\$ 400,000.00
20% Contingency ₁:					x 1.20
Rough Order of Magnitude (ROM):					\$ 480,000.00

Footnotes:

- 1.) Does not include costs for engineering, permitting, or general project management.
- 2.) This cost estimate was prepared with the best information available at the time of certification.
- 3.) Actual costs can vary based on availability of material, site conditions, and labor.
- 4.) Cost of tapping and Meter station provided by Gulf South Pipeline Co.

Title:

Is natural gas distribution service currently available to this site?	Yes	No
---	-----	----

Does this distribution line have excess capacity to service an industrial site?	Yes	No
---	-----	----

What is the distance to (feet), size (inches), and pressure (psi) of the **distribution** service line?

Distance (feet)	Diameter (in)	Pressure (psi)
-----------------	---------------	----------------

What is the distance to (miles), size (inches), and pressure (psi) of the nearest **transmission** line?

Distance (feet)	Diameter (in)	Pressure (psi)
-----------------	---------------	----------------

Transmission provider of natural gas:

Is a plan underway to improve services at or near this site within the next year? If so, please provide anticipated upgrades, location and time for implementation.
