Key Site Points:

- The Phase I Cultural Resources Survey identified three (3) standing structures along the eastern boundary of the site. Based on the status of these structures and alterations made, the cultural consultant suggested that these structures are not eligible for listing in the National Register of Historic Places.
- The survey was submitted to the State Historic Preservation Office (SHPO) for concurrence. Based on SHPO review, one (1) structure may be eligible, but further research may determine the site is not eligible.
- If the structure (LHRI Number 28-02446) can be avoided, no further investigation is required.
