I am seeking a determination from your office for a 38-acre tract south of I-20 in Ruston. This is for the La. Dept. of Economic Development's Site Selection Program. There are no development plans at this time. There is no federal funding for this LED program for me. This is my own property and there are no buildings of any kind on it, just woods. It has been in my family since about 1930 and no one has ever lived there. As far as I know there is nothing historic such as a building or cemetery in the vicinity. A map with the site outlined is attached. If this screen shot is not sufficient or you need further information, please let me know.

The coordinates are:  
32 ° 32' 17.70" N  
92 ° 36' 25.38" W

My LED contact is:  
Larry Henson 225-342-1135

Thank you. My contact information is:

No known historic properties will be affected by this undertaking.  
This effect determination could change should new information  
come to our attention.
