Title:

Chief of Operations

Is potable or process water currently available at this site? What is the distance (feet) to the nearest potable or process water distribution line to service this site?

What is the size (inches in diameter) of the nearest line?

Yes

O No

on site cleared

8

(inches)

What are the pressures of the water line at or nearest to this site?

(feet)

52

52 Residual:

Source of potable or process water (lake, well, other source) Well Aquifer (Grounbwater)

What is the total potable/process capacity of the existing water system in millions of gallons μ er day (MGD)? 5.5 mgd

1.7 What is the current average daily use of the existing water system in millions of gallons per day (MGD)?

What is the peak demand on the existing water system in millions of gallons per day (MGD)?

.5mgd

What is the excess capacity of the existing water system in millions of gallons per day (MGD ?

3.8

Capacity of closest elevated potable water storage tank (gallons):

200.000

Distance to closest elevated potable water storage tank (miles): 5 miles

Distance to appropriate booster station (miles): .25 mi

Is or will there be adequate pressure and flow at site to combat fires?

Yes

O No

Is a plan underway to improve services at or near this site within the next year? If so, please provide anticipated upgrades, location, and time for implementation.

NO. EVERY EFFORT WILL BE MADE TO INCLUDE NEEDS OF BOTH PARTIES.
