RE: Proposed Development - 21.65 acres  
Lafayette Parish, LA

Dear Dr. Shuman:

This is in response to your letter received September 15, 2016, concerning the above-referenced Louisiana Economic Development project. The Louisiana Division of Archaeology does not believe that an archaeological survey of this property is necessary. This property has a low potential to contain significant archaeology deposits.

If you have any questions, please do not hesitate to contact Rachel Watson in the Division of Archaeology at [rwatson@crt.la.gov](mailto:rwatson@crt.la.gov) or (225) 342-8165.

Sincerely,

Phil Boggan, Assistant Secretary  
Office of Cultural Development

Re: Request for Recommendation, 21.65 acres, Lafayette Parish  
LED

Dear Mr. Boggan:

On behalf of CSRS and the Department of Louisiana Economic Development, I respectfully request your recommendation regarding the necessity of cultural resources work for the tract listed in Figure 1, in Lafayette Parish, Louisiana. The relevant portion of your cultural resources map is shown in Figure 2.

The project (22-0946) that covers the northern part of the tract is a 1984 reconnaissance by Gibson that featured auger tests each 50 m and was negative as to results.

Your recommendation on this matter would be appreciated.

Sincerely,

Malcolm K. Shuman
