**EVANGELINE PARISH POLICE JURY
INDUSTRIAL SITE CERTIFICATION
WASTEWATER SERVICE AVAILABILITY**

Dear Mr. Sibley,

The Evangeline Parish Police Jury (EPPJ) industrial site will have wastewater service provided by the Ward 1 Industrial Park sewer system. This system is owned and operated by the EPPJ. The existing Ward 1 Industrial Park sewer system has a peak capacity of 37,500 gallons per day (GPD). The peak usage on the system right now is 28,500 GPD. We have discussed the capacity of the system with our engineers and they have informed us that due to the modular nature of our existing plant we can add 100,000 GPD of excess capacity within a six (6) month timeline. They also informed us that there is adequate space near the existing plant to do so. The existing wastewater infrastructure is within 500 feet of the site.

Please advise if you have any questions on the above.

Sincerely,

EVANELINE PARISH POLICE JURY

Eric Soileau, President
