Re: Natural gas availability for Nord du Lac development off LA Hwy 21

Dear Mr. Wainer,

This letter is to confirm that Atmos Energy has natural gas facilities within the Normandy Oaks Development and has tentative plans to extend this main onto the southern end of the new section of Ochsner Blvd. to serve a future commercial customer.

Atmos Energy also has a 6" natural gas main at the intersection of Hwy. 1085 (Bootlegger Road) and Ochsner Blvd. It is possible that in the future Atmos Energy may extend its main and tie into the 6" main on Hwy. 1085. If and when we tie into the main on Hwy. 1085 will depend on the demand for natural gas along the northern end of Ochsner Blvd.

I can be reached at 985-276-6003 if you have additional questions. Thank you for choosing natural gas, "THE NATURAL ADVANTAGE".

Sincerely,

Kennie Glass
Sales Representative
