Dear Dr. Shuman:

This is in response to your report received July 13, 2011, concerning the above-referenced project. Overall, the report meets our standards. We concur with your findings that no known historic properties are located within the Area of Potential Effect and that no historic properties will be affected. Therefore, we have no objections to the implementation of this project.

We do have one minor comment. There is a typo within the paragraph under the heading **Fieldwork** in line 12. We look forward to receiving the final hard copies and a pdf version of the report. If you have any questions, please contact Rachel Watson in the Division of Archaeology at (225) 342-8165.

Sincerely,

Pam Breux  
State Historic Preservation Officer
