- General Notes:**
1. No attempt has been made by CSRS, Inc. to verify site boundary, title, actual legal ownership, deed restrictions, servitudes, easements, or other burdens on the property, other than that furnished by the client or his representative.
 2. Transportation data from 2013 TIGER datasets via U.S. Census Bureau at <ftp://ftp2.census.gov/geo/tiger/TIGER2013>.
 3. Utility information from visual inspection and/or the individual utility operators. Exact field location has not been determined by survey. The lines shown are an approximate representation only and may have been offset for depiction purposes.
 4. 2015 aerial imagery from USDA-APFO National Agricultural Inventory Project (NAIP) and may not reflect current ground conditions.
 5. Proposed natural gas upgrade shown is for representational purposes only, depicting the intent of the cost estimate provided with this exhibit to meet LED minimum requirements, and is subject to revision.

Re. Port Barre Industrial Park East Site Natural Gas System Cost Estimate
CSRS Job No. 214002

Dear Mr. Hager:

According to local utility officials, the Port Barre Industrial Park East Site located in St. Landry Parish, Louisiana does not have access to an existing natural gas line to service the site. A natural gas distribution line and tapping & meter station operated by the Town of Arnaudville exists to the south of the site and may be available for natural gas access.

CSRS contacted the Town of Arnaudville and determined that they operate a tapping & meter station as well as an existing 4- inch natural gas line just south of the site. The Town of Arnaudville confirmed that their facilities may be available for service. The construction cost of a 4-inch distribution line to reach the site is estimated to be \$190,000. The proposed pipeline can be installed within the Rights of Way of Highway 741 and to avoid creating a new servitude.

Please note this estimate does not include engineering, required rights of way, environmental impacts, or operation and maintenance costs. This cost estimate was prepared with the best information available at the time of certification. The actual costs can vary based on the availability of material, site conditions and labor availability. This plan can be executed within a reasonable timetable of 180 days or less based on preliminary engineering judgment.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Sincerely,

CSRS, Inc.

Taylor M. Gravois, PE, PLS

Port Barre Industrial Park - East Site
 Natural Gas Cost Estimate
 Job No. 214002

Rough Order of Magnitude Cost Estimate					
Item No.	Description	Unit	Est. Quantity	Unit Price	Extension
1	Connection to Existing 4" PE Gas Main	Each	1	\$ 5,500.00	\$ 5,500.00
2	4" HDPE Gas Main	L.F.	3,683	\$ 40.00	\$ 147,320.00
3	4" Plug Valves w/ Boxes	Each	4	\$ 1,150.00	\$ 4,600.00
				Subtotal:	\$ 157,420.00
20% Contingency₁:					x 1.20
Rough Order of Magnitude (ROM):					\$ 190,000.00

Footnotes:

- 1.) Does not include costs for engineering, permitting, or general project management.
- 2.) This cost estimate was prepared with the best information available at the time of certification.
- 3.) Actual costs can vary based on availability of material, site conditions, and labor.
