**RE: South Schaefer Site
FEMA 100 Year Flood Plain Letter & Map
CSRS Project No 214002**

Dear Mr. Lege,

According to the FEMA Digital Flood Insurance Rate Map (DFIRM) panel no. 22099C0350H of St. Martin Parish, Louisiana, effective 11/4/2010, the South Schaefer Site is located in Flood Zone "X". In addition, according to the FEMA Effective DFIRM map provided on the LSU AgCenter website (<http://maps.lsuagcenter.com>), the site is located in Flood Zone "X". The LiDAR contours downloaded from LSU's ATLAS site indicate that the site ranges in elevation from 26 feet to 29 feet, however, the mean elevation of the developable property on the site is at elevation 27.5 feet.

No further action is needed to meet floodplain construction standards.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Respectfully,

CSRS, Inc.

Taylor Gravois, PE, PLS
