

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	10 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 2.00 Min: 0.60	Max: 7.30 Min: 4.50
2	10 inches	37 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 6.50 Min: 4.50
3	37 inches	72 inches	very fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 2.00 Min: 0.60	Max: 7.80 Min: 5.10

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: clay

Surficial Soil Types: clay

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: loam
stratified
clay

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

ASTM and EPA Requirements

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquiries (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of PAC Petroleum Consultants on Aug 25, 2014.

TARGET PROPERTY

Petty Company Property
Monroe, LA 71203

SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

RESEARCH SUMMARY

Building permits identified: **NO PERMITS IDENTIFIED**

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

GLOSSARY

General Building Department concepts

- **ICC:** The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- **Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections):** This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- **Jurisdiction:** This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- **GC:** General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeyman:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- **HVAC (Mechanical, Heating & Air companies):** HVAC = Heating, Ventilation, and Air Conditioning.
- **ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):** Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other common reasons for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- **"Pull" a permit:** To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- **Planning Department:** The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- **PIN (TMS, GIS ID, Parcel#):** Property Identification Number and Tax Map System number.
- **State Card (Business license):** A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

GLOSSARY

Permit Content Definitions

- **Permit Number:** The alphanumeric designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- **Description:** A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use(s) of the property.
- **Permit Type:** Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

Sample Building Permit Data

Date: Nov 09, 2000
Permit Type: Bldg -
New Permit Number: 101000000405
Status: Valuation: \$1,000,000.00
Contractor Company: OWNER-BUILDER
Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.

STORAGE TANKS, STORAGE ROOMS, OR BUILDINGS

Storage Facilities

☐ Acceptable ☐ Defective ☒ Not Present

Are buildings or rooms observed that may contain or have contained hazardous materials for storage purposes?

☐ Yes ☐ No ☐ Unknown Comments: _____

Is there any indication that hazardous waste or materials are or have been stored on the property

☐ Yes ☒ No ☐ Unknown Comments: _____

Above Ground Storage Tanks (AST's)

☐ Acceptable ☐ Defective ☒ Not Present

Are there Above Ground Storage Tanks on the property?

☐ Yes ☐ No ☐ Unknown Comments: _____

If yes, is there evidence of soil or groundwater contamination

Underground Storage Tanks (UST's)

☐ Acceptable ☐ Defective ☒ Not Present

If defective, why? _____

Is there evidence of soil or groundwater contamination observed on the property?

☐ Yes ☒ No ☐ Unknown Comments: _____

Are there any chemical manufacturing plants, gas stations, petroleum delivery/storage facilities, or similar operations observed on adjoining properties?

☒ Yes ☐ No ☐ Unknown Comments: _____

WASTE SITES

☐ Acceptable ☐ Defective ☐ Not Present

Is there evidence that the subject property or neighboring properties have engaged in storage, transporting or producing waste, chemicals or hazardous substances?

☒ Yes ☐ No ☐ Unknown Comments: Gas Stations + Farming

WATER INSPECTION

Drinking Water

☐ Acceptable ☐ Defective ☒ Not Present

Is there any evidence of water wells, in use or abandoned, on the property?

☐ Yes ☐ No ☐ Unknown Comments: _____

Are these wells the primary or sole source of drinking water?

☐ Yes ☒ No ☐ Unknown Comments: _____

Is there any evidence of pits, ponds, or lagoons or any other standing water visible on the property?

☒ Yes ☒ No ☐ Unknown Comments: On West side of center turn row there is evidence that water stands at some point but drains out to city ditch.

DRAINS

Are drains present in work areas that could be used for cleaning or flushing machinery or equipment?

☐ Yes ☒ No ☐ Unknown Comments: _____

Are the drains full?

☐ Yes ☐ No ☐ Unknown Comments: _____

Do drains go to: ☐ River ☐ Stream ☐ Pond ☐ Swale ☐ Other _____

CHEMICAL GAS & MINERAL INSPECTION

Asbestos (ACM)

Is there evidence of asbestos on the property?

☐ Yes ☒ No ☐ Unknown Comments: _____

If any asbestos is observed, does it appear friable?

☐ Yes ☐ No ☐ Unknown Comments: _____

Are suspected asbestos containing materials observed, such as sprayed materials on fireproofing area, pipe insulation, floor tile, etc.?

☐ Yes ☒ No ☐ Unknown Comments: _____

Urea Formaldehyde Foam Insulation (UFFI)

☐ Acceptable ☐ Defective ☒ Not Present

Is there evidence of Urea Formaldehyde Foam Insulation or other Formaldehyde containing products on the property?

☐ Yes ☐ No ☐ Unknown Comments: _____

Lead Hazard (Pb)

☐ Acceptable ☐ Defective ☒ Not Present

Is there visible evidence of peeling, cracking, or flaking paint?

☐ Yes ☐ No ☐ Unknown Comments: _____

Was any evidence of lead containing potable water supply pipes visible on the property?

☐ Yes ☐ No ☐ Unknown Comments: _____

CHEMICAL GAS & MINERAL INSPECTION continued

Insecticide, Fungicide, & Rodenticide (FIFRA)

☒ Acceptable ☐ Defective ☐ Not Present

Does it appear pesticides or herbicides have been stored or used in excess of normal use?

☐ Yes ☒ No ☐ Unknown Comments: _____

Has the property been used for agricultural purposes in the past ten (10) years?

☒ Yes ☐ No ☐ Unknown Comments: Currently being farmed

Are there any noticeable chemical odors?

☐ Yes ☒ No ☐ Unknown Comments: _____

Are there noticeable signs of straining or stressed vegetation?

☐ Yes ☒ No ☐ Unknown Comments: _____

Polychlorinated Biphenyl (PCB's)

☐ Acceptable ☐ Defective ☒ Not Present

Are any transformers, electrical devices, or hydraulic equipment observed on the property labeled as containing PCB's?

☐ Yes ☐ No ☐ Unknown Comments: _____

Is there evidence of oil leakage from any machinery or devices that may contain PCB's?

☐ Yes ☐ No ☐ Unknown Comments: _____

Is there evidence of PCB contamination to the soil or groundwater observed on the property?

☐ Yes ☐ No ☐ Unknown Comments: _____

Radon (Rn) ☐ Acceptable ☐ Defective ☒ Not Present

Is there reason to suspect that radon may be a problem in the intermediate property's location?

☐ Yes ☐ No ☐ Unknown Comments: _____

Has radon screening been conducted which indicates that the property may have elevated levels for radon?

ENVIRONMENTAL SITE ASSESSMENT
QUESTIONNAIRE

PROJECT:
Hwy 80 and Millhaven Road
Monroe, LA

CLIENT:
Denmon Engineering
Randy Denmon

So that we may complete this project fully and on time, please supply the following information:

A legal description of the property and any available site or floor plan maps must be supplied by the client/owner/architect. Yes

Will a chain of title for the property be provided? Yes

Address where report is to be sent: P.O. Box 8460, Monroe, LA 71211

Person(s) authorized to receive reports or information on this project: Randy Denmon

Person who will act as contact to provide access onto the property Randy Denmon

Who is the present owner(s) of the property? Petty Company

Who is the previous owner(s) of the property? _____

Approximately how old is the facility on the property? No facility on property

To the best of your knowledge, based on currently available information, hazardous or toxic materials, which exist or have existed on the property, are: None

To the best of your knowledge, based on currently available information, do any water wells, underground storage tanks, septic tanks, natural gas, petroleum product pipelines, or other underground structures exist on the property? None

If underground or aboveground storage tanks are or were present on the property, what do the tanks contain and what other substances have they contained in the past? N/A

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?

No

Are you aware of any AUL, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

No

As the user of this ESA, do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and process used by this type of business?

No

Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

Yes

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user;

Do you know the past uses of the property?

Agriculture

Do you know of specific chemicals that are present or once were present at the property

No

Do you know of spills or other chemical releases that have taken place at the property?

No

Do you know of any environmental cleanups that have taken place at the property?

No

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?

EDR Environmental LienSearch™ Report

The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

STATE OF LOUISIANA

PARISH OF OrleansQUITCLAIM DEED

BEFORE the undersigned Notary Public, duly commissioned, qualified and acting in and for the above named state and parish personally came and appeared:

THOMAS A. HOLLES (SSN), a single man and resident of Breton Parish, Louisiana

who declared and acknowledged that for the price hereinafter expressed he has sold, conveyed, quitclaimed and delivered, and by these presents does sell, bargain, transfer, assign, set over, quitclaim and deliver unto:

PEERY COMPANY (SAX T.D. NO. 72-1140916), a business domiciled in Ouachita Parish, Louisiana;

for itself, its heirs and assigns, the following property, together with the improvements and appurtenances thereto belonging, situated in Ouachita Parish, Louisiana, to-wit:

SEE SCHEDULE "A" ATTACHED HERETO AND HAVE A PART HEREOF FOR LEGAL DESCRIPTION OF PROPERTY

TO HAVE AND TO HOLD the said described property unto the said purchaser, its heirs and assigns forever, without warranty of title even for return of the purchase price, but with full subrogation to all rights of warranty and all other rights of warranty held by vendor.

The price for which the above quitclaim is made is the sum of TEN AND NO/100 (\$10.00) DOLLARS cash, the receipt of which is hereby acknowledged by vendor and full acquittance granted therefor.

THUS DONE AND SIGNED in Orleans, Louisiana, before me, Notary, and the undersigned competent witnesses, on this the 14 day of August, 1996.

WITNESSES:

Joe Roberto
Donna Neek

Thomas A. Holles
THOMAS A. HOLLES

NOTARY PUBLIC

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RESEARCH SUMMARY
