Re: LED Certified Sites Application  
Charleston Plantation  
Monroe, Ouachita Parish, Louisiana

Dear Mr. Childress:

This is in response to your letter dated February 21, 2011 regarding the above-referenced project. This property is located in an area considered by our office to be of moderate probability for cultural deposits. Therefore, due to the size and potential scope of work for the proposed project, our office is requesting that a Phase I archaeological survey be conducted prior to construction. I have enclosed a list of contracting archaeologists for your reference.

If you have any questions concerning these comments, please contact Rachel Watson in the Division of Archaeology at (25) 342-8165.

Sincerely,

A handwritten signature in black ink, appearing to read "Phil Boggan".

Phil Boggan  
Deputy State Historic Preservation Officer
